

# Are you interested in losing weight?

Volunteers needed for a research study on the effects of an investigational drug on weight loss and brain responses to food

COMIRB #15-0650 v.1.9.19 PI: Jason Tregellas, Ph.D.

## Participants will:

- Be randomized to 12 weeks of either drug or placebo treatment, and will not be able to choose which group they are in
- Complete an MRI scan before and after the 12-week intervention
- Complete measures of body weight and composition
- Complete measures of appetite and resting metabolic rate

## You may qualify for this study if you:

- Are 21-65 years old
- Are a non-smoker
- Have no known cardiovascular or significant endocrine/metabolic
- Are not pregnant or trying to conceive
- Are able to complete an MRI scan
- Have a BMI greater than 27 (check it out at <http://nhlbisupport.com/bmi/>)

*Monetary compensation is provided for your time*
